Foreword	xi
Preface	xiii
Introduction	xv

PART I

MAKING DECISIONS: INCORPORATING EVIDENCE AND AVOIDING ERROR 1

Chapter 1 Good Decisions	3
Where Does the Evidence Come From?	3
The Progression of Use of Evidentiary Sources	4
How Much Information from a Study do we Actively Use?	4
Forms of NEEDLEs	7
Types of Decisions	7
Sources of Error	8
A Method to Our Madness	8
Chapter 2 Diagnostic Decisions	11
Making the Diagnosis	11
Differential Diagnosis	12
The Statistics of Likelihood	17
Pre-test Probability	19
Decision Thresholds	26
Characteristics of Diagnostic Tests	32
Applicability of Diagnostic Tests	51
Post-test Probability	55
Sources of Error	58
Putting It All Together	72
Chapter 3 Treatment Decisions	81
Treatment Choices	81
Treatment Decision-making	81

Treatment Parameters	84
Patient-oriented Evidence	92
Applicability of Treatment Effects	99
Risks of Treatment	104
Patient Values	108
Sources of Error	110
Putting It All Together	119
Case Continued: The Clock Is Ticking	120

Chapter 4 Decisions about Prognosis 129

The Art of Prognostication	129
Prognostic Evidence	130
Clinical Prediction Rules	133
Making the Decision	135
Sources of Error	136
Putting It All Together	136
Onward	137

PART II

EVALUATING THE EVIDENCE 139

Chapter 5 Good Evidence 141

Bias	141
Random Error	142
Deliberate Misrepresentation	143

Chapter 6 Initial Evaluation of a Study 145

Foreground and Background Knowledge	145
The First Page	146
Avoiding Preconceptions	147

Chapter 7 Validity of Individual Studies 149

Understanding Validity	149
Diagnostic Studies	150
Treatment Studies	160
Prognostic Studies	174
Retrospective Studies	178

Chapter 8 Evaluating Study Results 187

Precision and Significance	187
Pitfalls in the Assessment of Statistical Significance	198

Chapter 9 Integrative Literature	207
Systematic Reviews and Meta-analyses	207
LLSA and Non-systematic Reviews	217
Clinical Practice Guidelines	221
Clinical Prediction Rules	228
Chapter 10 Miscellaneous Study Types	235
Economic Analyses	235
Qualitative Studies	236
Chapter 11 Deliberate Misrepresentation	239
Reading Is Not Believing	239
Deceptive Authorship	241
Deceptive Study Design	243
Deceptive Data	246
Deceptive Analysis and Reporting	247
Deceptive Publication	249
Deceptive Marketing	251
Summary	253
Onward	253

PART III

FINDING THE EVIDENCE	255
----------------------	-----

Chapter 12 Good Searches	257
Chapter 13 Asking Questions	261
Choosing a Question	261
Analyzing the Question	262
Background Questions	266
Refining Foreground Questions	268
Choosing a Category of Evidence	276
When PICO Causes a Revision of the Question Type	278
Choosing the Type of Study	279
When the Ideal Study Is Not Available	283
Summary	286
Chapter 14 Searching for Answers	287
Prefiltered Resources	287
MEDLINE and Other Large Databases	298
Internet Resources	311
Rating Resources	315

Chapter 15 Search Results	317
Did We Find What We Need?	317
Sources of Error	319
Chapter 16 Saving the Evidence	323
Critically Appraised Topics (CATs)	323
NEEDLEs	327
Conclusion	336

PART IV

ENDMATTER 337

Epilogue	339
Selected Online Resources	341
Additional Reading	343
References	345
Index	361
